Introducing CorelDRAW Graphics Suite X4 Legendary Graphics Power

Corel is proud to announce the newest version of its award-winning graphics suite, CorelDRAW[®] Graphics Suite X4. With more than 50 new and significantly enhanced features, CorelDRAW Graphics Suite X4 provides users with the tools, resources and confidence to tackle a wide variety of projects - from logos and Web graphics, to multipage brochures, to high impact signage and digital displays. New text and page-layout enhancements, market-leading file format compatibility, and an expanded collection of high-quality content make this powerful suite the ultimate design partner, helping users turn inspiration into stunning results.

CorelDRAW Graphics Suite X4 includes two hours of brand-new video tutorials created by Australia's own Scott Georgeson of Click'N'Learn. Scott, along with Corel's Director of Product Management, Graphics, Gérard Métrailler, will demonstrate all the new and enhanced features of this exciting new release at the launch,

1. New layout and text tools:

Independent Page Layers make it easy to create multiple page layouts within one document. The Interactive Table Tool provides the perfect structure to layout, edit and format text and graphics.

2. New and improved photo-editing:

Real-time Histogram feedback lets you view tone changes or photo effects before they are applied, whilst the Straighten Image Control corrects scanned or photographed images taken at an angle. Built-in RAW camera support is now available for over 300 cameras.

3. New CoreIDRAW[®] ConceptShare[™]:

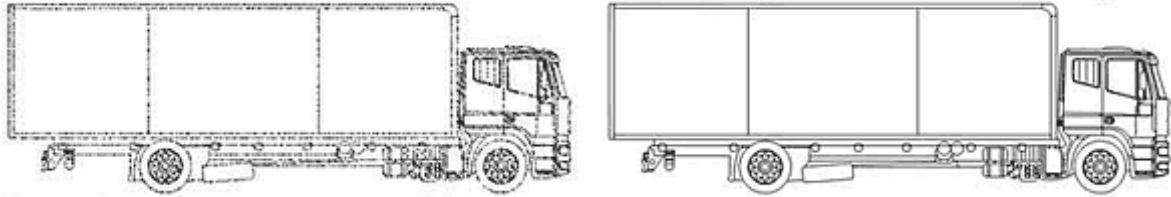

Share designs and ideas with colleagues or clients in real time, enabling you to accelerate the approval process and satisfy clients faster than ever before.

more overpage....

4. Enhanced vector illustration tools:

The new Centerline Trace method within Corel® PowerTRACE™ X4 means you can even convert fine detail bitmap images - such as line-drawings or signatures - to vector illustrations.

5. Enjoy seamless compatibility:

Including Microsoft® Publisher, Adobe® Photoshop® CS3, Adobe® Illustrator® CS3 and Microsoft® Word 2007. Plus, you can now import PDF files with comments.

PLUS much, much more!

Join us at the Australian Launch Events to see these and dozens more new and significantly enhanced features in action.... See you there!
